Courses: Engineering Economics, Probability and Statistics, Production Planning, Quality Control, Engineering Project Management, Systems Simulation

Work

Brightline Solutions Group

<https://www.brightlinesolutions.com>

Senior Project Manager

Jan 2022–Present

- Lead a portfolio of 6 concurrent software delivery projects with a combined budget of \$8M, consistently achieving 95%+ on-time milestone completion.
- Established a hybrid Agile-Waterfall delivery framework that reduced scope creep by 28% and improved stakeholder satisfaction scores from 3.8 to 4.6 out of 5.
- Coach and mentor 4 project managers and 12 cross-functional team members, introducing capacity planning and risk burn-down practices.
- Partner with product, engineering, and compliance teams to align roadmaps, manage dependencies, and ensure regulatory readiness for fintech clients.
- Present monthly executive dashboards covering schedule, cost, risk, and benefits realization to C-level sponsors.

Keywords: Agile Delivery, Portfolio Management, Budget Management, Stakeholder Engagement, Risk Management

Cedar Point Digital

<https://www.cedarpointdigital.com>

Project Manager

Jun 2019–Dec 2021

- Managed 15+ web and mobile application projects from initiation through launch, with budgets up to \$1.2M and teams of 10-18 people.
- Implemented Scrum ceremonies and Jira workflows, increasing sprint predictability by 30% and reducing average defect escape rate by 18%.
- Negotiated vendor contracts and managed external partners, saving \$220K over two years through consolidated licensing and improved payment terms.
- Built project charters, WBS, RAID logs, and change control processes adopted as standard templates across the PMO.

Keywords: Scrum, Jira, Vendor Management, Change Control, PMO

Lone Star Infrastructure Partners

<https://www.lonestarinfra.com>

Associate Project Manager

Jul 2018–May 2019

- Supported the delivery of municipal infrastructure and IT modernization projects with budgets totaling \$3.5M.
- Coordinated schedules, permits, and vendor deliverables across 8 workstreams, ensuring compliance with city and state requirements.
- Prepared weekly status reports, meeting minutes, and risk registers for project sponsors and steering committees.
- Assisted in the transition from waterfall to agile for the internal tools team, facilitating retrospectives and backlog grooming.

Keywords: Infrastructure, Compliance, Scheduling, Reporting, Agile Transition

Jordan consistently demonstrated exceptional leadership and analytical rigor. Their ability to align diverse stakeholders and drive projects to completion makes them an invaluable asset to any organization.

Projects

Global ERP Rollout

<https://www.brightlinesolutions.com/projects/cdp>

A multi-site ERP implementation for a manufacturing client across 6 countries.

Feb 2022

- Led a 25-person cross-functional team through discovery, design, build, test, and deployment phases.
- Managed a \$4.2M budget and coordinated 5 external vendors, delivering all 6 country rollouts within 3% of budget.
- Reduced order-to-cash cycle time by 19% through process standardization and automation.

Keywords: ERP, Change Management, Vendor Coordination, Global Rollout

Customer Data Platform Migration

<https://www.cedarpointdigital.com/projects/cdp>

Migrated legacy customer data into a unified cloud platform for a retail client.

Jan 2022

- Directed a 12-person team to migrate 40M+ customer records with zero critical data loss.
- Established data quality gates and rollback plans that reduced post-launch incidents by 40%.
- Facilitated weekly steering committee meetings and delivered executive dashboards on progress and risks.

Keywords: Data Migration, Cloud, Data Quality, Stakeholder Management
